WONDERFUL CRYSTAL

WRIST RADIO

RECEIVES BROADCASTS UP TO 50 MILES WITH ATTACHED ANTENNA
WEAR IT LIKE A WATCH
LISTEN IN LIKE A RADIO

Wow! A wrist radio like the one used by the famous detective character that really works. Yes, imagine receiving broadcasts up to about 50 miles, using the antenna attachment. Without attaching the antenna lead-in clip (which is included), to a substantial antenna such as the dial stop on a telephone, reception is limited to a few miles. Think what fun it will be to have your own personal wrist radio that actually permits you to listen to your own programs without disturbing others, and there are no batteries, no tubes—nothing to wear out. Makes detective and battle games seem more real, pretending to transmit messages, and getting help in the nick of time. Complete with private earphone

BOYS! MEN! I'LL HELP YOU MASTER YUBIWAZA

— says N.J.FLEMING — YUBIWAZA MASTER

*(YUBIWAZA IS THE SECRET, AMAZINGLY EASY ART OF SELF-DEFENSE THAT TURNS JUST ONE FINGER OR YOUR HANDS INTO A POTENT WEAPON OF DEFENSE—WITHOUT ANY BODILY CONTACT...)

In just 2 hours after you receive "YUBIWAZA" you will be on your way to being an invincible Yubiwaza Master, at home, this Fast, EASY picture way or it costs you nothing.

WHAT YUBIWAZA CAN DO FOR YOU IN JUST A FEW SECONDS . . .

11:05 P.M.—You retire from dance. Roughnecks throw insulting remarks to your date.

11:06 P.M.—They attack you with fists and hatlies. You counterattack with YUBIWAZA . . .

11:06 P.M. PLUS 7 SECONDS — You are untouched — while every hoodlum is on the run

"I WEIGH ONLY 98 LBS. — YET I CAN PARALYZE A 200 POUND ATTACKER WITH JUST A FINGER —BECAUSE I KNOW YUBIWAZA!"

. says Yoshie Imanami — Pretty Japanese wife of N.J. Fleming — Yubiwaza Master

The VITAL Decision is YOURS to make! Which shall it be? ☐ "Be a "chicken" by running away? ☐ Be a "hothead" and be beaten up? ☐ Mail coupon now and be prepared with Yubiwaza to send your attackers flying!

I'M A 3rd-DEGREE HOLDER OF THE BLACK BELT—SYMBOL OF HIGH PROFICIENCY IN THE JAPANESE SYSTEM OF SELF-DEFENSE THAT USES NO WEAPONS BUT BARE HANDS. I spent many years in Japan learning these little-known SECRETS. The most amazingly effective of all Self-Defense techniques that stood out in ALL my Japanese Training is contained in my AMAZING new Yubiwaza book - all yours to have if you ACT NOW. YUBIWAZA is the name of a fantastic system of Self-Defense that makes use of an EASY-to-Learn knowledge of vital body areas and the techniques of the use of just ONE Finger or the entire hand to counteract & overcome ANY violent attack. It is commonly known that with the aid of Yubiwaza, young men - and girls, too! — with only a few hours of training, turn back 3, 4 and even 6 attackers - temporarily DISABLING ONE, putting another to flight, making a third howl with pain, while the fourth begged the opponent to stop!

NOW YOU TOO CAN LEARN YUBIWAZA!

The experts in Japan, who know and teach these ONE-finger techniques, have now explained that YUBIWAZA is a centuries-old system of Self-Defense which is so simple and so effective that outsiders were never instructed in its use. The system was restricted to Japanese who SWORE to apply these methods only in time of danger and attack by an aggressor. Many of the very techniques in my Yubiwaza book, once highly guarded secrets of the ancient Samurai warriors never shown to outsiders are now shown to you — FIRST time!

EASY — And I am now ready to show you, too, through clear, easy-to-understand photos, every move I guarantee to make you a YUBIWAZA practitioner or become every cent you paid will be refunded. You don't have to attend my school where I train beginners like you and turn them into experts. Now I can show you how to practice YUBIWAZA in the privacy of your own home with only a few minutes of practice a day. I'll show you how to defend yourself against hoodlums, bullies, "wise guys" and juvenile delinquents who respect neither lives nor property.

When you master YUBIWAZA methods, you can put an aggressor down with JUST ONE FINGER! You can disarm an opponent rushing you with his fists, a broken bottle, a revolver or any kind of bludgeon. You can turn an aggressor's attack into your advantage with only one finger or your bare hands. He must be your "slave" to the action you YUBIWAZA keeps you "on top." You can apply simple pressure of your finger against any one of a dozen or more vital nerve centers of your opponent and watch his gun or knife fall from his limp hand while he himself sinks to the ground completely helpless and faint. If the neighborhood bully pushes you, you can make him say "uncle" quickly — with the help of YUBIWAZA!

MASTER EVERY SITUATION!

Make no mistake! The world is crowded with anti-social enemies who think nothing of sticking a knife into the ribs . . . or assaulting passers-by . . . or attacking helpless citizens just for the fun of it . . . or molesting boys and girls shamelessly. There is a crying need for a system of self-defense that relies on KNOWLEDGE, not big muscles or strength . . . that depends on TECHNIQUE — not on strength or size of body . . . that is based on simple TRAINING — not an illegal possession of weapons.

When you know YUBIWAZA you can disarm and disable your opponent in seconds. You can repel a savage who grabs you from behind — no matter how big he is or how much he weighs. Instantly you know WHERE to attack, and how. You learn the body's major vulnerable regions, the defense or unusual position to take, and your body's personal weapons which you can apply to maximum advantage. I have jam-packed all I know about YUBIWAZA into my Guide, which I have profusely illustrated and clearly explained. I take you step by step through the fundamentals of this amazing system so that you understand clearly and immediately how these effective principles work. You learn those tricks used by marines, police and G-men — how to floor any bully . . . how to touch vital spots that will make any attacker helpless. No matter what you are — man or woman, boy or girl, big or small, strong or weak, you can overpower practically any opponent with lightning speed!

BECOME A NEW MAN!

Knowledge of YUBIWAZA will turn you into a NEW MAN even if you never actually have to use it! For you will become SELF-ASSURED through your ability to handle yourself. You will walk with a determined and confident air secure with the knowledge that NOTHING can frighten you . . . that you can deal with ANY man, ANY weapon, ANY situation—and that you can do all this with NO bodily contact! And you will win respect and admiration from everyone.

Thousands of men of all ages have won confidence and respect by learning YUBIWAZA. YOU can do the same! You owe it to your own peace of mind . . . to your friends and loved ones—to be able to defend yourself in these days when attack may come at any time and place from hoodlums, criminals and delinquents. Mail Coupon NOW for my COMPLETE Instruction on YUBIWAZA. If you and your friends don't say that YUBIWAZA has made a NEW MAN out of you, every cent will be refunded!

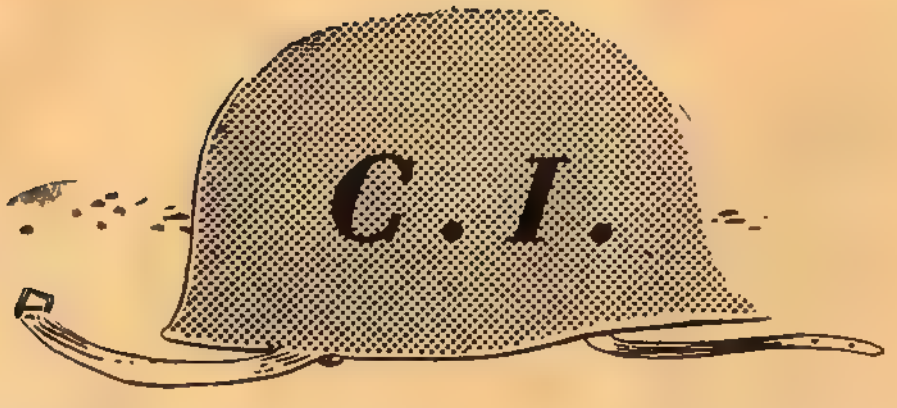
"THE SMILING DEATH"
SEE PART III
THE SILVER LUGER



My name is Major John William Henry. I am an instructor in the C.I. section of the United States Army. We train our police criminal investigators with the fundamental information necessary to do their work in a most efficient manner. We pick our people very carefully and do a thorough screening job on them. What are the general qualifications for such criminal investigators?

The desirable attributes of criminal investigators are common sense, self-control, integrity, tactfulness, innate resourcefulness and a determination to solve every crime with which they are confronted, despite all obstacles. These attributes, as well as personal dignity and courteousness, enable the investigator to convey to others the sincerity of his purpose and to gain for him that wholehearted cooperation which is essential to the solution of crimes. In time of war, in addition to those normally selected from military police personnel, criminal investigators may be selected for special training from other military personnel having investigative experience in civil life or demonstrating unusual aptitude for investigative work.

In order to perform properly his duties in investigation, the criminal investigator must have a comprehensive knowledge of the following:

a. How to gain respect, inspire confidence, and maintain good will of the public.

b. The techniques and methods of obtaining evidence and statements from victims, witnesses, informants, and suspects.

c. How to detect discrepancies or lack of faith in interviews and interrogations.

d. How to take notes and make diagrams and sketches.

e. How to connect every interval of time and action.

f. How to recognize evidence of crime.

g. How to substantiate all facts with statements of witnesses or items of evidence.

Take a deep breath. You might as well say it aloud: "All of that in one man!" The answer is a big YES. Because the C.I. has a big job to do. Actually the principal responsibilities of criminal investigators are the investigation and prevention of crime affecting Army personnel and those civilians subject to the Articles of Uniform Code of Military Justice, and safeguarding the property of the United States.

In addition to their duties in investigation, they recover lost, stolen, or abandoned property, apprehend wanted military personnel or civilians subject to the Articles of the Uniform

Code of Military Justice, prepare and administer investigative records, make surveys, and conduct character investigations. You can see at once that some of this work resembles very closely the same type of work as done in civilian life by detectives who are members of the police department.

Let me illustrate this for you: The owner of a garage calls up the police department. Last night when he closed up there were a dozen new tires that he had bought in his office. This morning when he went into his office they were all missing. He was the last person to close and the first one to open the office. Two detectives come over to see him. They get a complete description of the missing property. They also learn that two other people have keys to the garage. Soon they are on their way to see what additional facts they can find that will help them recover the missing property.

Exactly the same thing can happen at an army post. At night the sergeant in charge of garage 215 locks up. There were a dozen new tires on the floor next to a jeep. In the morning when he opens the garage, the tires are missing. This is the job for the C.I. Two members come to see him. Notice they get a complete description of the missing property. They also learn he is the only one supposed to have the key to that garage. Now they have a tough job on their hands. But don't worry, they will get the culprit and recover the tires.

You may feel something of a let down. This looks like ordinary detective work. What, no catching of spies? Spies are caught as you do know. But we have many other important problems that take up the time of the C.I. I want to make one point clear: The successful investigation of criminal offences by the C.I. depends in a great measure upon the effective questioning of complainants, witnesses, informants, suspects, and other persons encountered during the course of an investigation.

Questioning is divided into two broad classifications: Interviews, which are conducted to learn facts from persons who may have knowledge of a wrongful act but who are not themselves implicated. And interrogations, which are conducted to learn facts and to obtain admissions or confessions of wrongful acts from persons who are implicated in a wrongful act

Persons who have been interviewed may later be interrogated. And interrogated is not necessarily confined to individuals suspected of criminal acts. It may include persons who may have been accessories or may have knowledge of the crime which, for various motives they are reluctant to admit.

It is usually advisable to take statements from persons being interviewed or interrogated. When an interview or interrogation develops information which will have definite value as evidence, that information or evidence must be recorded in a written, signed, and witnessed statement, or preserved through mechanical recording.

What is the purpose of the interview? An interview is an informal questioning to learn facts. The successful investigation of crime requires that the investigator be able to learn, through personal questioning, what the person interviewed has observed through his five senses: sight, hearing, taste, smell, and touch.

Each individual interviewed is presumed to possess certain information that may lead to the solution of a crime. Effective interviewing requires that interviewer make full use of all the knowledge of human nature he possesses, so that the individual interviewed will disclose all he knows about the matter in question. If a person does not possess knowledge of the crime, the interview should estblish that fact. Pertinent negative evidence is as much a part of a complete investigation as positive information.

Now let me go back to those twelve missing tires. Remember your let down? What, no catching of spies? I can tell you the rest of his case because it is no longer marked confidential. And you musn't jump so quickly to conclusions yourself. Sure, there were twelve missing tires.

But these tires wern't ORDINARY TIRES! I am sure you have heard about bullet proof tires or puncture proof tires. These tires were a new type that had just been developed. They were going to be given a special hard test under conditions to simulate war time fighting. Who stole these tires? And why? We interviewed more than one hundred and ten people. Carefully and with extreme patience we did the job. One person interviewed remembered something from the sense of smell: An odor, delightful, like a perfume or toilet one. But he couldn't remember the way the woman looked because he didn't see her face. Who was she? We went over a lot of perfumes and toilet waters with him. He definitely identified the perfume. Then we looked for a woman using this perfume. She had to be somebody on the post. We found a civilian female typist.

From her we got our next lead: She had a boy friend. She deliberately forged a pass so he could get into the post late at night. And also out! He came in a car and took those tires. We picked him up and we got the rest of the story. He had been promised and given a large sum of money for them. We found the tires and a group of men working for an alien government. So We rounded up the spies! Feel better now?

Sometime in the future I will tell you more about the C.I., our training, and work we do.

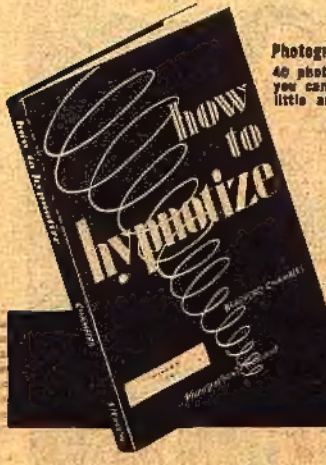
The truth is that these highly susceptible subjects make up a very small percentage of the population. That is why amateurs and beginning hypnotists have so often been disappointed in their attempts at trance induction. Now, however, recent scientific research has developed ENTIRELY NEW METHODS that are not only sure fire in their results but quick and easy to achieve! For the first time, these new methods are presented in HOW TO HYPNOTIZE in language that you can easily and successfully follow on the very first reading!

SHOWS YOU STEP BY STEP

This book — which has been acclaimed by doctors and psychologists — is guaranteed to give you all the know-how necessary to induce the trance state in others. It not only explains the latest discoveries in hypnotic induction, but it shows step by step, move by move, exactly how to bring on the trance; how to transform the trance into deeper and still deeper states; and how to terminate the trance quickly and effectively without any dangers whatsoever. You are even given alternative methods, so that you can actually chose the one that suits you best.



Photographically Illustrated

40 photographic illustrations show how you can achieve trance induction in as little as 30 seconds!
